

WATCH YOUR SECURITY CAMERAS ON YOUR TV

Follow these steps if you want to view your Security Cameras on your TV.
You can see your cameras on your TV by connecting with a Chromecast, Apple TV, game console or smart TV.

WATCH WITH CHROMECAST, GAME CONSOLES OR SMART TVs

- Make sure that your mobile device is connected to the same Wi-Fi network as your Chromecast, game console or smart TV.
- Open the Security Camera app on your Android or iOS mobile device.
- Tap the Cast icon  located in the top right corner of any page in the app. The icon will only appear when your mobile device is connected to the same Wi-Fi network as your receiver.
- From the pop-up, select the Chromecast device, game console or smart TV you want to play your video on.
- When you're connected, the Cast icon  will turn blue and you can start watching.

WATCH WITH APPLE TV

- Make sure that your iOS mobile device (iPhone or iPad) is connected to the same Wi-Fi network as your Apple TV.
- Open the Security Camera app on your iOS mobile device.
- Tap the AirPlay icon  located in the top right corner of any page in the app. The icon will only appear when your iOS mobile device is connected to the same Wi-Fi network as your Apple TV.
- From the pop-up, select the Apple TV device you want to play your video on.
- When you're connected, the AirPlay icon  will turn blue and can start watching.

Note: To use Apple TV using AirPlay, make sure your Apple TV is running OS6+ and that you're accessing the app from an iOS device (iPhone, iPad, iPod Touch).
